

EOSC Synergy at a glance

1. Vision

Expand EOSC capacity and capabilities by leveraging Investments and existing know-how & resources of national digital infrastructures.

2. Objectives

- ✓ Expand EOSC Capacity
- ✓ Building EOSC Capabilities
- ✓ Foster EOSC services integration and promote quality
- ✓ Promoting EOSC policy harmonisation
- ✓ Develop the EOSC Human capital

3. Expected impact

The strongest impact of the EOSC-synergy project will be a measurable **increase of the number of resources**, services and data repositories offered to researchers through EOSC, paired with **concrete, contributions to the EOSC governance structure from national perspectives** and a new channel to support the build-up of EOSC human capabilities.

4. Implementing EOSC at the EU National level

Spain, Portugal, UK, Czech Republic, Germany, Slovakia, Poland and the Netherlands.
